## SGT. FRANK HALEY HAS INTERESTING JAP EXPERIENCES

Mr. A. W. Haley, and his son, Sgt. Frank Haley were Didsbury visitors last week and renewed acquaintances in town. Mr. Haley was Pool elevator agent here until leaving in 1945 for Edmonton, and his son, Sgt. Frank Haley, had just returned after 18 months attached to the British army in the Far East.

According to a news story appearing in the Calgary Herald, Sgt. Haley, who is 22 years old, attended the Canadian Army Japanese school at Vancouver for a year after enlisting in the army in July, 1944, and then went directly to Britain.

He was with the last group of Canadians to leave the Southeast Asia area, and managed to arrive in Calgary a day earlier than the remainder of the group of 25 officers and other ranks. He was the only Canadian in the group.

His service with the British army took him to India, the Malay Straits and Siam, and his work with the Southeast Asia Translocation and Interrogation Centre brought him in contact with thousands of Japanese soldiers and civilians.

Arriving in Singapore late in 1945, Sgt. Haley was given the job of translating Japanese documents, maps and other papers from prisoners-of-war camps. Later he went to Siam to help with the screening of Japanese soldiers, questioning them to find those who were wanted for war crimes.

"They were easy to deal with," he recalled. "They didn't try to hide anything, and answered our questions openly. The Japanese citizens are very honest."

He arrived in Siam the day the king was assassinated and all troops were confined to barracks because of the widespread search in Bangkok.

The British group had little to do with the actual war crimes trials, but their interrogation of prisoners was to get preliminary information for the trials. Sgt. Haley set in on several of the sessions.

The party left Singapore April 9, and returned to Canada via Bombay, the Suez Canal, Mediterranean and Britain.

## LONG YEARS AGO

June 9, 1920

The progressive district of Elkton is arranging for the biggest sports day ever held in the west country, on Wednesday, July 26th, on the banks of the Little Red Deer river.

The business places in Didsbury have decided to close at 1 p.m. every Wednesday from June 16th to September 16th.

The subscription price of the Didsbury Pioneer was raised this week to \$2.00 per year, and is now the same as most other weekly newspapers in Canada.

Two horses owned by Ed Blain and A.W. Axtell were killed by a stroke of lightning northwest of town Saturday afternoon.

There are now seven private tennis courts in town.

The Mountain View Women's Institute will dedicate their new community hall 8 miles east of Didsbury on Friday, June 18.

## GEORGE STILES, FATHER OF LOCAL TEACHER, DIES IN CITY

Mr. Herbert Stiles received word last Thursday of the death of his father, George Edgar Stiles, 64, in a Calgary hospital.

Deceased was well known in the southern part of the province, having operated a drug store at Bassano from 1911 to 1936.

**FOR EVERYONE IN NEED:** Free blood for everyone in need is the aim of the Canadian Red Cross Society's free peacetime Blood Transfusion Service now being organized in the Province of Alberta. When the full operating hospital patients like the badly burned little

girl shown above will benefit from the Service. A province-wide campaign to enrol voluntary donors will be undertaken from June 15 to 21. Everyone between the ages of 18 and 65 are urged to register with the Red Cross. All hospitals in Alberta will be included in the plan.

## 126 Citizens Have Already Pledged Blood To Red Cross

This is Red Cross Enrolment Week for blood donors in the Province of Alberta, and in Didsbury the campaign seems to be going exceedingly well, and up to Tuesday noon 126 local citizens have signed the application form to donate a small quantity of blood when the Red Cross mobile clinic visits our town next fall.

Art Heiber, chairman of the local Enrolment Committee, is very pleased with the response of blood donors to date, and asks anyone who has not been canvassed, but who wishes to donate a small quantity of their blood to help along this very worthy cause, to call at C.E. Reiber's office and sign the enrolment form. Forms are also available at most local business places, and can be completed at any time this week.

When the last Red Cross Mobile Blood Donor Clinic visited Didsbury 192 local and district citizens signed up to offer a small quantity of their blood. 142 actually donated blood on this occasion, and considering the present plan of the Red Cross to make fresh blood available for all hospitals in Alberta, including Didsbury hospital, it is expected that the response will be almost double the previous registration before the Enrolment Week campaign closes Saturday night.

Local citizens between the ages of 18 and 65, who have not already signed the Red Cross Blood Donor Enrolment forms, are urged to do so immediately.

Signing the form does not mean that you must immediately donate

## FORMER LOCAL TEACHER WRITES ABOUT THE NORTH

In Vol. 1, No. 4, of "Sabaka," the Didsbury High School paper just off the press, appears an article entitled "Former Didsbury Teacher Explores the Far North," which is quite interesting and is reproduced below:

Miss Kathleen Collins, who left Didsbury in June 1944, after teaching here for five years, has had many exciting adventures in connection with her work for the Department of Education in British Columbia. In a recent letter to the school staff here she tells briefly some of her experiences. The following is part of the letter:

"In Prince George I worked as assistant to the teachers, visiting them as frequently as possible and whenever I could overcome travelling difficulties. I learned to drive a car through miles of mud, to put chains on anywhere, morning or night, in mud or snow and miles from anyone. I learned to change tires—the first year I changed 24 out of 25 flats alone. . . . Riding mixed trains means sharing one old tumble-down passenger coach with loggers, trappers and transients.

Most times the only woman on the train was the "ski-clad, helping teacher." Leaving the train, snow shoes were the only means of getting.

(Continued on Page 6)

## LOCAL DOCTORS IN ACCORD WITH RED CROSS DONOR PLAN

We want to let the citizens of Didsbury and district know that we are heartily in accord with the project of the Red Cross Society to provide whole blood and plasma, free of charge, to every patient in Alberta in need of a transfusion.

The need of a transfusion of blood is quite often a very pressing one, and to know that we shall have, at all times in the Didsbury hospital, a bank of whole blood and plasma ready at hand for any emergency, is of the utmost satisfaction to us, and will, we feel sure, prove of inestimable benefit to many patients in the cure of serious illnesses and the saving of lives.

H.W. FPP, M.D., C.M.  
J.A.D. PAUL, M.D., C.M.  
L.J. PATTERSON, M.D., C.M.

## MORE PUREBRED BULLS TO IMPROVE LOCAL HERDS

New breeding stock is steadily being brought to the Didsbury district to improve the quality of dairy and beef herds of local farmers, and at the recent bull sale at Lacombe stockmen purchased purebred bulls, as follows:

**Short horns.**  
C. Trenholm bought Roenalla's Bull from R.R. Bowe for \$240.

**Herefords.**  
H.L. Hoesgood bought Climax W. Domino from Humphrey Evans for \$750.

**R.A. McFarlane** bought Denver Royal Prince Bull from Murray McKenzie for \$400.

**L. Kohut** bought Evergreen Valley Baldwin 3rd from Derwent Bros. for \$625.

**Murdo Campbell** bought Gwynedd-Lad 4th from Ed Johnson & Sons for \$310.

**Chas. Kohut** bought Santa Domino from L.H. Underwood for \$575.

**Aberdeen Angus.**  
W.H. Herbert bought Bobby of Buzzard Butte 2nd from B.L. Caldwell for \$230.

## LOCAL NEWS NOTES FROM HERE & THERE

Lou Boles received word last week of the death of his brother, George, of Douglas, Wyoming. Deceased was 59 and succumbed to a heart attack.

Harold E. Oke was a business visitor to Calgary this week.

Mr. Perrin of Calgary was a Didsbury visitor Friday last and while here planted his garden. He returned to the city on Saturday, accompanied by Mr. Chas. Dickau.

According to Mr. J.W. Wordie of the local branch of Crystal Dairy Ltd. all grades of butterfat and butter advanced another cent today, and local prices for cream appear under Didsbury Markets on page 1.

Mr. C. Dickau Sr. has almost completed the foundation for his work shop and garage.

Mr. E.G. Ranton was a business visitor to Calgary on Tuesday.

Mr. and Mrs. Norman R. Oke arrived last week by motor from Ontario and are at present visiting in town with Mr. and Mrs. Harold E. Oke and family.

Local fishermen over the week end report varying luck, but mostly carrying. We heard of one local enthusiast who was a little too anxious and stepped into a hole in one of the creeks that was too deep to wade. In fact he went over his head and when he came up he still held a fish in one hand and his rod in the other.

The weather hasn't cleared off for more than a month now and showers are occurring almost daily with heavy rains being reported in some parts of the district. Residents about 25 miles west of Didsbury report some hail last week but no material damage. As we go to press Tuesday skies are partly overcast with more heavy showers indicated.

Seeding has been practically completed and the early sown grain is about five inches or more in height with some fields showing even better growth. Moisture conditions are ideal and warm weather is now needed to bring the crops along.

## Interesting Display At High School Achievement Day

Achievement Day at the Didsbury High School last Friday afternoon was attended by a large number of parents and visitors who were astonished at the work done by the boys and girls of the shop and economics classes during the past year.

On entering the basement of the public school building visitors were shown around by one of the pupils of Mr. Flanagan's shop class, and the boys were seen at work turning out sandwich trays on the lathe, cutting out "fret work" on the jig saw, using the power planer, and working with other power tools in the shop.

The visitors were shown the electrical system of a modern automobile, the completely overhauled automobile engine, electric motors and other electrical equipment, all assembled by the students as part of their year's shop work.

In the basement of the high school building was a remarkable display of wood work, including book cases, sandwich trays, smoke stands, plaques, checker boards, table lamps, coffee tables, corner brackets, nut bowls, tool chests and countless other articles, all made by boys of the class this past year. A

coffee table, made by Don Freeman, and a boat "Cris," made by Clifford Johnson and George McDonald, were the outstanding items in this display.

On view was a display of leather goods and woodwork, made by the Olds shop class, and this attracted considerable attention.

### Home Economics Display

In the Home Economics room the visitors were escorted to the tea table by Delores Guelten, where they enjoyed some of the "dainties" made by the girls of the Home Economics class. They then had the privilege of viewing the numerous garments, including dresses, skirts, blouses, aprons, fancy work, knitting and crocheting done during the past year by the girls of the Home Economics class, under the supervision of their teacher, Miss Brownell.

During the afternoon many visitors had the pleasure of meeting Mr. and Mrs. E.W. Wood of Calgary. Mr. Wood is shop director of the Calgary Technical School and he was very impressed with the equipment of the Didsbury High School work shop, and with the quality of the work being done by the pupils of Didsbury High School.

## H. WOOD WINS CHALLENGE CUP FROM BOB EUBANK

Golf is still the popular game in Didsbury and the local course is in good shape and is being kept moving so that everyone playing can enjoy the game.

Local tournaments are being conducted to keep up interest in golf. The Challenge Cup—a handicap trophy—is available for any player to try his skill at winning. Bob Eubank, who has held the cup, lost it to H.W. Wood over the week end when the latter turned in a score of 78 for 18 holes. With his 6 handicap Mr. Wood had a net score of 72, which is four over par. The Didsbury Golf Club has arranged for a two-ball foursome tournament, and games are to commence this Wednesday afternoon, and continue the rest of the week.

## ROSEBUD DEFEATS NEAPOLIS IN HARDBALL ON SUNDAY

A small crowd witnessed a hard ball game in town Sunday between Rosebud and Neapolis. The game was exciting from start to finish and ended in a win for Rosebud by a score of 22-17. The winners took an early lead but from then on were held well in hand until the last inning when they scored seven runs to clinch the game.

**Lineup of teams:**  
Rosebud—B. Persinger, Smith, M. Pratt, H. Pratt, Morgan, Persinger and Newton.  
Neapolis—George Morasch, S. Tighe, R. Reimer, A. Morasch, L. Shultz, D. Shultz, H. Morasch, K. Shultz and J. Warkentin.

## WESTERDALE NEWS NOTES

The Westerdale Willing Workers met the home of Mrs. L. Jones last Wednesday afternoon with 13 members and one visitor present. The roll call was answered with a current event. During the business session a button hole contest was held, first prize going to Mrs. H. Jackson and second prize to Mrs. F. Herbert.

The next meeting will be held at the home of Mrs. H. Jackson on July 9.

Digging for coyote pups is no picnic, especially after 10.30 p.m. Last Thursday evening seven men dug for two and a half hours, making a hole about nine feet deep, to catch six pups.

Mr. and Mrs. T. Bolton and family were Sunday guests at the home of Mr. and Mrs. R. Devitt.

The Westerdale baseball team played at Sundre last Wednesday evening and were defeated by a 12-5 score. However, on Sunday afternoon Sundre returned the game and the local boys defeated them 6-4.

Hillcrest will play at Westerdale next Sunday. Come out and support the local boys.

Mrs. T. Peters spent last week in Edmonton.

Work has commenced on the new kitchen on the Westerdale hall. The old kitchen has been pulled away and the basement dug.

## MISCELLANEOUS SOWER HONORS ANN SNYDER

Thirty-one ladies gathered at the home of Mrs. David Pratt on Wednesday afternoon, June 11th, to honor Miss Ann Snyder at a miscellaneous shower. The afternoon was spent in making a bride's book, after which Miss Snyder was presented with a loaded basket of many lovely and useful gifts.

A delicious lunch, served by Mrs. Harry Waite, Mrs. J. Underhay, Mrs. B. Pratt, Audrey Gooding and Olwen Howes, completed the afternoon.

## WESTCOTT BOY SCOUTS NAVIGATE DOG POUND

A thrilling adventure was enjoyed by the 1st Westcott Boy Scout Troop, and their Scoutmaster, Jack Robertson, when the boys camped overnight near the bridge crossing the Dog Pound on the Carstairs-Cremorne road. There were 16 in the party, and from there they left Saturday morning, June 7th, in three boats and successfully navigated the ten miles of river to the Jack Robertson home. They stopped for dinner during the day and when arriving at their destination Margaret and Mary Robertson received them with a well-prepared lunch of hot buns, etc.

## KNOX UNITED W.M.S. MEETS AT CLARKE HOME

Monday evening eleven members of Knox United Church W.M.S. met at the home of Mrs. R. Clarke. Mrs. E. Pearson took charge of the meeting, and Mrs. Bowman led the study, "What of the Church in Asia." At the close of the meeting the hostess served a delicious lunch. Members and friends are reminded of a special Missionary Service Sunday evening, June 22, by Rev. D. Whyte Smith.

## COST OF PRICE CONTROL

A report tabled in the House of Commons shows that over \$657 million was spent in the war and post-war years to maintain price controls and subsidies. Of this amount, the department of agriculture reported it had paid \$131,809,000 to assure production or distribution of such things as milk, creamery butter, fertilizer, alfalfa and seed. Indirectly the department feels that it has helped to maintain the price structure with the subsidization of farm products.

## PREVENT FOREST FIRES

Some time ago light winds from the north brought a haze of smoke from forest fires in the northern part of the province and also brought a general reminder that the forest fire season is at hand and every precaution should be taken to prevent loss of timber and scenic beauties of Alberta.

While the fire situation west of Didsbury has not been serious the past few years, this does not mean that we will forever escape the ravages of this dreaded hazard which destroys millions of feet of timber each year. The best way to save this timber is to prevent forest fires, or by putting the small fires out before they can do any damage. To do this everyone in the bush must be sure their camp fires are completely extinguished before leaving them. The bush country residents and campers should investigate all smoke to see that the fire causing it is completely under control.

A few precautions taken in the bush at this time of year may prevent serious fires which would mean the loss of thousands of dollars of marketable timber.

Timber berths west of Didsbury have been a valuable asset to our community. This past winter more than 20 mills were operating west of town and many men were employed in logging and sawing lumber, while truckers were given employment in transporting this lumber to market. Indirectly these lumbering activities were a benefit to every business place in town, and we should all strive to keep the industry active.

You can't make lumber if there are no forests from which to cut the logs. Small trees cannot grow into marketable timber if they are not protected. Water sheds cannot be protected if they are destroyed by fire.

The only way to protect our forests is to prevent forest fires. So, Mr. Camper, fisherman or hunter, be sure to put out any fires you may start in the bush this year.

## ARE YOU A SOLDIER OF THE COMMON GOOD?

Every man should recognize himself as a factor in his home town and become a soldier of the common good. Why not? We are mutually dependent, every one of us, from the sunrise of life, for no man lives to or for himself. The utterly selfish man is a misfit in the scheme of human existence; is a libel upon a beneficial providence. As we recognize these facts the town grows and prospers. A town that believes in itself and appreciates this fact of dependence upon each other will go forward with rapid strides because its people work together for the common good.

## SAFETY FIRST ON FARMS

Another farm fatality is reported in Alberta. A farmer in the Holden district suffered vital injuries when he was run over by his tractor. This farmer left a wife and eight children.

Death and injuries from farm accidents are altogether too numerous. Every farmer should train himself to exercise the greatest care in handling farm machinery. Never forget that the tractor is the most deadly piece of machinery on your farm.

## OUR BOARDING HOUSE

Well, everybody is upset here. Dave lost his shirt—not in a gambling joint, of course, he is too smart for that. It vanished off the laundry line. It does not get there often, only about every two months, and then in a way by force.

It was surely a beautiful shirt, and made pre-war too! Right down to his knees, he claims, but I never saw him in his shirt only. He is too bashful for that.

There was no special color to it any more, but it was cut off at the sleeves and sewn back with store-bought, had a few holes in the elbows and in the neck, but otherwise it was like new.

The shirt was last seen just before dark by Mrs. Viney, our neighbor to the north.

Somebody sniped it, but who? Dave was greatly upset, looking for it all day all over the place and in the adjoining lots, till I told him he was lucky that it was not his pants he had lost. That would have put him in close confinement the rest of his days. Without pants a man can hardly get around Didsbury any more and Dave surely does not want to buy a new pair of pants at his old age.

There is a lot of discussion around here about who did this mean trick to him and some have suggested it to be an inside job.

Anybody having seen Dave's old shirt wandering around should report it to the Boarding House.

THE OBSERVER

Quebec, Ontario and British Columbia, the larger three provinces of Canada compose more than one-third of the total area and contain two-thirds of the population. The three prairie provinces come next in size and each has a larger population than British Columbia. The area of the Maritimes is less than half of any of the other provinces. Although the total Maritime population is larger than that of any other single province except Ontario and Quebec, the North West Territories and the Yukon are immense districts containing about two-fifths of Canada's total area but they have a very small population.

Think of the time we spend getting out of things we never should have gotten into.

## ABNORMAL WEATHER

Cold weather has persisted over the prairie, while British Columbia has been basking in summer temperatures. Snow fell in Winnipeg and Regina on Tuesday and it was 90 degrees in Kamloops. B. C. heavy frosts occurred in Manitoba, Saskatchewan and Alberta.

Growth of grain has been delayed by the cold weather, and the ripening season will be prolonged. The spring was cold last year and it took 124 days to ripen wheat in Alberta.

Frost will set back young wheat plants but will not do permanent damage. Early barley, however, will be harmed, and if there is any fax up it will be severely damaged.

The month of May has been unusually dry, and frequent high winds have taken the moisture from the topsoil. Substantial rainfall will be needed early in June to bring the crop along.

## FARM FAMILY LIVING ON THE PRAIRIES

One-fifth of the rural people in Canada are in the provinces of Alberta and Saskatchewan. The story of their rural settlement, particularly in the first decade of the present century, when the population increased over 400 per cent, is a story of novelty, excitement, enterprise, and endurance. Now, writes Florence M. Edwards in "Farm Family Living in the Prairie Provinces," the story is merging into a more sober tale: one of struggle for stability, for security on the farm, for a reasonable standard of living.

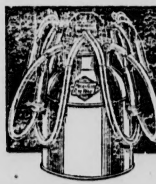

In order to obtain first-hand information on such questions as what have the rural families achieved in their short history of settlement; what kind of living is provided by farms in various kinds of farming regions; is housing adequate; what of community facilities; how much they spend for living; how do they spend it, and so on, more than 600 prairie housewives were interviewed and farm homes in three contrasting farm regions, in Central Alberta, and in Central and Northern Saskatchewan, were visited during 1942 and 1943.

Miss Edwards, who was formerly Agricultural Economist with the Dominion Department of Agriculture, has collected and co-ordinated the information given in the Dominion Department of Agriculture Publication No. 787, "Farm Family Living in the Prairie Provinces," a copy of which may be had on request from the Dominion Department of Agriculture, Ottawa.

## MASSEY-HARRIS RITE-WAY MILKER

SAVES 65%

OF YOUR MILKING TIME AND LABOR

MILKS COWS the Right Way SUCTION AND MASSAGE

One operator with the Rite-Way Milker can milk up to 20 cows per hour, saving 65% of the time and labor required to do the job by hand.

The Rite-Way employs the natural action of the sucking calf—suction and massage—keeps your cows healthy and contented.

## PUBLIC NOTICE

Public Notice is hereby given that the following By-Law passed by the Town Council on June 2, 1947, will become effective July 1, 1947.

**BY-LAW No. 538**  
A By-Law for regulating the Vendors of Milk within the Town of Didsbury

Under the authority of Section 245 of the Town and Village Act, the Mayor and Council of the Town of Didsbury in Council assembled, enacts as follows:

1. No person shall sell, offer for sale, or serve any fluid milk as such on the premises of any shop, store, restaurant or any other place of business in the Town, except in the original container, sealed or capped as such milk was received by the said person from a licensed vendor, but the seal or cap of any such container may be removed in the presence of the consumer, provided original container is for culinary use or for serving on cereal, or in tea or coffee or similar beverages.

Any person found guilty of a violation of this By-Law shall, upon Summary Conviction before a Justice of the Peace or Police Magistrate having jurisdiction, be liable to a fine of not less than five dollars and costs nor more than fifty dollars and costs, and if such fine and costs be not paid forthwith it shall be lawful for such Justice of the Peace or Police Magistrate to commit the offender to any common goal for any period, not exceeding thirty days, unless the fine and costs, including the costs of committal are sooner paid.

## CANADIAN EXPORTS RISE

Canadian exports to the United States during the first four months of 1947, valued at \$320,000,000 were \$62.5 million higher than the corresponding figures of 1946, according to figures compiled by the Dominion Bureau of Statistics.

Other increases in the value of exports over the first third of 1946 were noted in trade with the United Kingdom, which rose by \$5.4 million; the British Commonwealth and Empire countries in the Western Hemisphere, \$11.7 million; and Latin America, \$15.8 million.

Total exports from Canada for the period under review had a value of \$788 million, as compared with \$699.1 in 1946.

Export to European countries other than Great Britain were \$25.8 million less than the first four months of 1946.

## SQUARE MILK BOTTLE UNSUITABLE IN CANADA

The square milk bottle is the "something new" in the milk bottle future—but not today. The square bottle is now being used extensively in the United States. Chief fault of the bottle, as far as Canadian use is concerned, is the present inability to strengthen its shoulders sufficiently to withstand pressure when milk freezes while standing on the front step during the winter months. In the Southern States milk doesn't freeze, so that there are no restrictions on the use of square bottles there. Canadian winter weather, however, does not react favorably on the new bottle.

## FOR BETTER ALFALFA HAY

Farmers who have alfalfa to cut for hay are advised by A. M. Wilson, Field Crops Commissioner, to have their equipment ready in good time so that no delay will occur when haying time arrives. Early cutting of alfalfa together with quick haying or stacking methods conserve the nutritional value of the crop.

First cutting of alfalfa should be made soon after the first flowers appear. If the crop is left beyond this stage much of the nutritional value will be lost. Leaves make up about 55% by weight of the alfalfa plant and contain about 70% of the total protein of the entire crop. If leaves are lost by delayed haying or in handling operations value of the feed is greatly reduced.

## COLOUR BLINDNESS

Color blindness is mentioned by modern medical science as a serious handicap in these days of speed and multiple machinery. Defective color vision is usually hereditary, and is more common among males than females.

While little can be done in some cases, authorities say that defective color vision is sometimes a symptom of a complaint which can be cured, and those who have difficulty in distinguishing between the primary colors are urged to consult their physicians, since their trouble may arise from correctable deficiency conditions.

Control of men by men paralyzes effort. Control of men by God releases energy.

## DISABLED MAN GIVEN NEW HAND

A skillful surgeon attacked to the Birmingham Accident Hospital in Britain's Midlands, carried out a very clever operation and made life living again for an unfortunate workman. This workman, who was quite young, had the misfortune to have all the fingers of his right hand cut off by a machine. Only the thumb was saved, so that the hand was useless and the youngster could never apparently have expected to do manual work again. The hospital surgeon stated, however, that he could make the disabled man fit again and a most interesting operation was carried out. He grafted a finger from the left hand on to the mutilated right one and joined the tendons of this finger so skillfully to those of the damaged hand that the patient can use this new finger perfectly normally. The whole treatment, including training, lasted about a year, but after these 12 months a depressed invalid had become a happy, self-reliant man ready to face life with confidence.

## CANADIAN UNRRA SHIPMENTS END DECEMBER 31

Shipments for UNRRA will be made from Canada until December 31, 1947. The final requisitions were received by the Canadian Commercial Corporation on May 31, contracts will be placed by July 31, and goods must be made available for the supplier not later than November 30.

Canada was the third largest contributor to UNRRA, her total of \$154,000,000 being exceeded only by that of the United States and Great Britain. In addition, Canadian commodities valued at \$110,000,000 in United States funds were purchased in this country from free funds placed at the disposal of UNRRA by the contributing nations.

## BARLEY ENTRY DATE POSTPONED TO JULY 15

A late and unfavorable seeding has made necessary an extension of the final entry date for this year's \$25,000 National Barley Contest sponsored by the brewing and malting industries.

Chairman of the Contest Committee, T. J. Harrison announces that the date for receiving entries has been extended from June 15 to July 15.

Entry forms are to be mailed as previously announced to the chairman of the provincial committees, in Alberta to A. M. Wilson, Alberta Field Crops Commissioner, Edmonton.

Contestants in the Peace River Block in British Columbia should mail their entries to Mr. Wilson at Edmonton.

## HANDLING DDT

DDT is classed as a poison, but says Alan G. Dustan, Division of Entomology, Dominion Department of Agriculture, it can be used safely if applied and handled in accordance with the directions on the containers. DDT preparations should not be applied to plants that are to be used as food, especially shortly before harvest, and oil solutions should not be used on plants at all.

## IT'S ALL IN THE STATE OF MIND

If you think you are beaten you are.  
If you think you dare not, you don't.  
If you think you'd like to win, you can't.  
It's a "cinch" you won't.  
If you think you'll lose, you've lost.  
For out in the world you'll find.  
Success begins with a fellow's will—  
It's all in the state of mind.  
Full many a race is lost  
Ere even a race is run,  
And many a coward fails  
Ere even his work's begun.  
Think big, and your deeds will grow.

Think small and you fall behind;  
Think that you can and you will;  
It's all in the state of mind.  
If you think you are outclassed, you are;  
You've got to think high to rise;  
You've got to be sure of yourself before  
You can ever win a prize.  
Life's battle doesn't always go  
To the stronger or faster man;  
But sooner or later the man who wins  
Is the fellow who thinks he can.

## EVANGELICAL UNITED BRETHREN CHURCH

Rev. A. J. Grams, Pastor  
10:30 a.m.—Morning Worship.  
11:30 a.m.—Sunday School.  
7:30 p.m.—Evangelistic Service.  
Wednesdays:  
8:00 p.m.—Prayer Service.  
Fridays:  
8:00 p.m.—Young Peoples Meeting and Choir Practice.

A warm welcome awaits you in these services. Come and let us go up to the House of the Lord together.

## CHURCH OF ENGLAND

St. Cyprill's, Didsbury  
Rev. F. C. Musson, L. Th., Rector  
DIDSBURY SERVICES  
First Sunday in the month—  
Evening service ..... 8:00 p.m.  
Third Sunday in the month—  
Holy Communion ..... 11:00 a.m.

## UNITED CHURCH

Rev. D. Whyte Smith, Minister  
11:00 a.m.—Sunday School  
7:45 p.m.—Evening Worship.  
Westcott—11:00 a.m.

Mennonite Brethren in Christ  
Rev. D. C. Eby, Pastor  
Sundays:  
1:30 p.m.—Sunday School  
2:30 p.m.—Prayer Service.  
7:45 p.m.—Prayer Service, including Young Peoples' Meeting on alternate Sundays.  
Wednesdays, 8 p.m.—Prayer service

## REDEEMER LUTHERAN

The Church of the Lutheran Hour  
Rev. E. B. Fox, Pastor

WESTCOTT SERVICES—  
First and third Sunday at 11 a.m.  
DIDSBURY SERVICES—  
First and third Sunday at 2 p.m.  
Second and fourth Sunday at 10:30 a.m.  
Sunday School after each service  
THE LUTHERAN HOUR—  
Every Sunday over CFCN, Calgary at 9:30 a.m.

## CANCELLATION OF BUILDING PROJECTS

Notwithstanding the cancellation of huge building projects by Housing Enterprises of Canada Limited due to high costs of labor and materials, yet it is understood in Ottawa that this organization plans to complete all the projects at present under construction. "Housing Enterprises feel that the purpose for which they entered the field is not being fulfilled, and that rentals which result from such high costs are far in excess of those which the scheme envisaged," declared Rt.

Hon. C. D. Howe in the House of Commons. "Unless it is possible for Housing Enterprises to secure considerably lower prices on other projects, they do not intend to proceed with their 1947 programme." This is interpreted in Ottawa as one indication of the high costs of building in Canada today since the life insurance companies which back Housing Enterprises did not find it worthwhile to go ahead with ambitious plans to help housing thereby.

Buy or sell, twice as well, with Want Ads.

## PLEASE PHONE OR BRING IN YOUR NEWS ITEMS

This newspaper cannot make a house to house canvas for news, but it is always glad to have it phoned or handed in. We want all the news. We are just as pleased to mention your guests or your visit as to mention doings of your neighbors—but maybe your neighbors co-operated with us in getting the facts. Please let us have your news items. Our columns are always open to them. And remember they must be in before Tuesday noon, if at all possible.

## FREE SERVICES FOR FARMERS

For the purpose of assisting the farmers of Canada to meet the economic problems with which they are constantly confronted and to carry on the industry of Canadian agriculture to the advantage of the nation as a whole, the Dominion Government has several million of dollars invested in free services and facilities.

No other industry has at its disposal such a wide and varied range of services and facilities provided by the Government. They include the Dominion-wide system of Experimental Farms and Stations, the divisions of Dairy Research, Botany and Plant Pathology, Chemistry, Entomology and Plant Protection of the Science Service, the divisions of Health of Animals, Plant Production and Livestock with their field services of the Production Service, the Marketing Service, in which is centralized the administration of all grading services of livestock and livestock products, dairy products, poultry, eggs, fruit, vegetables, canned goods, maple products and honey, and the Division of Agricultural Economics, which serves as a fact-finding body concerning production and marketing.

Results of the research work and experiments of all these services of the Dominion Department of Agriculture are made known to farmers and the people of Canada generally through free publications, the press and radio, exhibits and other ways directed by the Publicity and Extension Division.

Those engaged in the industry of Agriculture, whether directly or indirectly, are invited to make full use of the services and facilities as outlined. They are free.

## Harmful Effects of Lice and Mites on Poultry Flocks

(Experimental Farms News)

The harmful effects of lice and mites on poultry, not being immediately visible, their presence is often not detected until large numbers of them exist.

At the Dominion Experimental Station at Harrow, Ont., frequent examination of the birds and fixtures for the pests have proved that eradication is fairly simple when carried out during the early stages of infestation.

The common body louse inhabits the area around the vent of the bird and usually the egg clusters of the insects can be seen adhering to the base of the abdominal feathers of the birds.

Mites prefer to spend the day on the under side of the roosts or in cracks or nail holes in the building, making nightly visits to the resting fowl to feed. Because of the different habits of the parasites, methods of control must vary accordingly.

A smear of nicotine sulphate, a half inch wide along the top of the roost put on before dark, will rid most of the birds of lice. Of course, to get the benefit of the delousing

every bird must be on the roost. Heavy infestations may require a repeat application. A small quantity of blue ointment smeared on the skin around the vent of the bird is an effective treatment, though taking more time. Blue ointment should not be used when eggs are required for hatching. Sodium fluoride dusted into the feathers is still another way of exterminating lice. The poisonous nature of these insecticides requires cautious handling.

Slow drying, oil bearing sprays are usually recommended as a treatment against the so called red mite. Crude carbolic, used motor oil, or any disinfectant having a creosote base, diluted with kerosene should be sprayed forcibly into the places where the mites are lurking. Because mites multiply at a rapid rate, a thorough coverage is advised.

Our need is not for men who can prove their party right but who can prove their country right.

Holland expects to produce 20,000,000 oysters this year.

### BARLEY ENTRIES HAVE EVEN BREAK

So far as the cleaning of their entry is concerned all contestants have an even break in the \$25,000 National Barley Contest sponsored by the brewing and malting industries.

Recent inquiries by prospective entrants have expressed fear they would be at a disadvantage in competing against a contestant who has facilities of his own for cleaning his barley. The National Contest Committee stresses this is not the case.

All entries in the contest are cleaned by the grain inspection branch before the samples are placed before the judges.

In cases where a contestant elects to hold his carload entry for seed, the samples are taken from the farmer's bin by a representative of the Plant Products Division. These are likewise cleaned by the grain inspection branch before the judges look at them.

The basis for judging this year is the same as last. Two of the chief requisites are suitability for seed and for use by the malting industry. Other things of course, are considered, such as weight per measured bushel, fineness of size, skinned and broken kernels, under-sized kernels and maturity.

## SPECIAL SUMMER EXCURSIONS TO PACIFIC COAST

Vancouver - Victoria

New Westminster

DAILY TO SEPT. 30

RETURN UNTIL OCT. 31, 1947

Enroute see the Canadian Rockies — Sloopover at Banff, Lake Louise, Emerald Lake and other picturesque spots. All are yours to enjoy on the way to the Coast.

## APPLE ORCHARDS IN THE FROZEN NORTH

Agriculture Board, which is a digest of agricultural policies in effect or under consideration in various countries of the world, is one of the publications of the Economics Division, Marketing Service, Dominion Department of Agriculture. In dealing with the agricultural policy of the Soviet Union, Agriculture Board gives some interesting information about orchards in the frozen north.

On the eve of the war, the Soviet Union had 3.7 million acres in fruit farms and vineyards. Half of these were located in the RSFSR (Russian Socialist Federated Soviet Republic). It is the largest republic of the Union, with Moscow as its capital, and extends from the Baltic across Siberia to the Pacific. One-third of the fruit acreage in that republic was lost during the war. A five-year plan is now in operation for the rehabilitation of orchard acreage, the improvement of yields, and the extension of areas farther to the north and east. Government nurseries will produce 233 million cuttings of fruit trees, berries, and grapes to be distributed among collective farmers. Soviet scientists are breeding new varieties of frost-resistant and early ripening fruit trees and berries and opening new fields for horticulture with inter-species hybridization.

One of the most outstanding achievements has resulted from experiments with fruit trees conducted by Prof. A. Kisurin of the Omsk Agricultural Institute. After years of research, it is now feasible to grow apple, pear, plum and other fruit-bearing trees in the north, where temperatures drop as low as 45-50 below zero. These trees creep 15 to 20 inches above ground instead of growing vertically. Although the only protection against Siberian frosts is a light cover of straw and heavy blanket of snow, these creeping apple trees produce more than 160 pounds of fruit per tree every year.

## MORE POWER EQUIPMENT USED IN CLEARING LAND

In the operation of power equipment in clearing land for farms, a tractor bulldozer can root out a 20-inch stump in 60 seconds, which would require four to eight hours of labour to remove by hand and team methods. So the Engineering Section of the Division of Field Husbandry, Dominion Experimental Farms Service, demonstrated how gathering information for the revision and expansion of the bulletin, Land Clearing.

Consideration was given to all operations involved in reclaiming land, from the removal of heavy timber to breaking and tillage operations. The information compiled includes details on the removal of timber, pulp wood, brush, stumps and stones the use of explosives, equipment, power machinery, and information on breaking, drainage and seeding operation. A copy of the bulletin (Publication No. 739) may be obtained by writing to the Dominion Department of Agriculture, Ottawa.

Because of a shortage of paper in Britain today, Shakespeare is difficult to get and there is a scarcity of Bibles.

# IMPORTANT GOVERNMENT NOTICE

## Respecting Price Control

The following list is a convenient summary of the Wartime Prices & Trade Board Order No. 737 and is published for the protection and guidance of the public. It does not give the full text of the Order. For full details reference should be made to the Order itself.

CLIP THIS AND KEEP FOR EASY REFERENCE

### Summary of GOODS AND SERVICES REMAINING SUBJECT TO MAXIMUM PRICE REGULATIONS

As set forth in Wartime Prices & Trade Board Order No. 737—effective June 9, 1947

#### FOODS

- All flours, flour mixes and meals.
- Yeast.
- Bread, bread rolls, and bakery products.
- Biscuits, except those completely covered with chocolate.
- Processed cereals, cooked or uncooked, including breakfast cereals, macaroni, vermicelli, spaghetti, noodles and other alimentary paste products.
- Rice, excepting wild rice.
- Pot and pearl barley.
- Shelled corn, but not including popping corn.
- Dried peas, soy beans, dried beans except lima beans and red kidney beans.
- Starch.
- Sugar, sugar cane syrups, corn syrups, grape sugar, glucose.
- Edible molasses.
- Tea, coffee, coffee concentrates.
- Malt, malt extract, malt syrup.
- Black pepper and white pepper, and substitutes containing black or white pepper.
- Solid and cooking oils.
- Raisins, currants, prunes, dehydrated apples.
- Tomatoes, tomato sauce, tomato paste, tomato pulp, tomato puree, tomato catsup, chili sauce, when in hermetically sealed cans or glass.
- Canned pork and beans, canned spaghetti, macaroni and vermicelli.
- Canned corn, canned field beans excluding the lima and red kidney varieties.
- Canned apricots, canned peaches, canned pears.
- Fruits and vegetables in the two preceding items when frozen and sold in consumer size packages.
- Strawberry and raspberry jams, and any jam containing strawberries or raspberries.
- Meat and meat products, not including game, pet foods, and certain varieties of cooked and canned meats.
- Sausage casings, animal and artificial.
- Canned salmon, canned trout, canned pickled of the 1946 or earlier packs.
- Edible animal and vegetable fats including lard and shortening.

#### CLOTHING

- Men's, youths' and boys' coats, jackets and windbreakers made wholly or chiefly of leather.

- Men's, youths' and boys' suits or pants made wholly or chiefly of cotton or rayon.
- Men's, youths' and boys' furnishings as follows: blouse; collar; pyjamas; nightshirts; underwear other than that made wholly or chiefly of wool; shirts, including sport shirts, other than those made wholly of all-wood or all-rayon fabric.
- Women's, misses', girls', children's and infants' garments of all kinds (but not including: (a) garments made wholly of all-wood fabric, (b) raincoats, (c) jackets and windbreakers, except when made wholly or chiefly of leather, or (d) dressing gowns).
- Knitted wear for either sex as follows: undergarments, other than those made wholly or chiefly of wool; circular knit hosiery of cotton or rayon.
- Work clothing, including aprons, for either sex, when made wholly or chiefly of cotton or leather.
- Uniforms for either sex.
- Gloves, gauntlets and mitts for either sex when made wholly or chiefly of cotton or leather, except those designed as specialized sports equipment or for specialized industrial uses.
- Bearings; foundation garments, but not including surgical corsets.
- Diapers and diaper supports.

#### HOUSEHOLD AND OTHER TEXTILES

- Textile products as follows, when made wholly or chiefly of cotton or rayon: bedspreads; blankets, except horseblankets; dish towels; face cloths; luncheon sets; napkins; pillow cases; sheets; slippers; towels; wash cloths.

#### HOUSEHOLD EQUIPMENT AND SUPPLIES

- Furnaces and other heating equipment, except portable electric heaters, fireplace heaters, grates, and radiators.
- Jacket heaters and other water heating equipment.
- Soap and soap compounds.

#### MOTOR VEHICLE ACCESSORIES

- Pneumatic tires and tubes when sold for the purpose of or as original equipment on agricultural machinery.

#### CONSTRUCTION PRODUCTS

- Poplar (aspen, balsam and cottonwood) and soft wood lumber of all kinds.
- Softwood veneers.
- Physoced not wholly constituted of hardwood.
- Millwork such as doors, sashes, windows, stairs and noises, but not including screen doors or window screens.
- Pre-cut soft lumber products designed for use in residential or farm buildings, but not including fully pre-fabricated buildings.
- Gypsum board and gypsum lath.
- Wallboards and building boards.
- Cast iron soil pipe and fittings.
- Nails.

#### AGRICULTURAL MACHINERY, IMPLEMENTS, EQUIPMENT AND SUPPLIES

- Practically all items of farm machinery, including planting, seeding and fertilizing equipment, plows, tillage implements and cultivators, haymaking machinery, harvesting machinery, tractors, wagons, dairy machines and equipment, sprayers and dusters.
- Articles of barn and barnyard equipment.
- Stationary gas engines.
- Harness and harness hardware.
- Barbed wire and other fencing wire and fences.
- Buck twine.
- Whedrows.
- Feeds and feed products of all kinds except horse meat, pet foods, hay, straw, clam shell and poultry grit.
- Fertilizers of all kinds, but not including humus, manure, sphagnum moss or peat moss.
- Gopher poisons.
- Seed field beans and seed field peas.
- Grains as follows: wheat; barley; oats; flaxseed; buckwheat; rapeseed; sunflower seed; grain screenings.

#### RAW AND PROCESSED MATERIALS

- Base iron and steel products and alloys including pig iron; cast iron and steel scrap, ingots, bars, plate, rods and wire.
- Primary and secondary tin and alloys containing more than 95 per cent tin.
- All fats and oils, including Vitamin A oils, of animal, vegetable or marine origin but not including refined medicinal cod liver oil and core oil.

#### PULP AND PAPER

- Waste paper, except: (a) dissolving grades, (b) "ulpho" grades of bleached sulphite, (c) "Dura" grades of bleached sulphite, (d) groundwood and unbleached sulphite grades used for the manufacture of newspaper or hanging paper.

#### CONTAINERS AND PACKAGING MATERIALS

- Containers, packaging and wrapping devices of a type used for the sale or shipment of products, when made from a textile fabric and including bags, cases, envelopes, folders and sacks.

#### SERVICES

- Transportation of goods and services associated therewith.
- Warehousing, dry storage of general merchandise and household goods other than wearing apparel; cold storage, including rental of lockers and auxiliary services such as processing charges in cold storage plants.
- The supplying of meals with sleeping accommodations for a combined charge, except when supplied by an employer to his employees, directly or through a servant or agent, or by a hotel as defined in Board Order No. 294.
- The packing or packaging or any other manufacturing process in respect of any goods subject to maximum prices, when performed on a custom or commission basis.

#### USED GOODS

- Used goods and used bagging and baling material.

Any material shown above processed for incorporation into, or any fabricated component part of any of the above goods is subject to maximum prices.

Also any set which contains an article referred to above is subject to maximum prices even though the remainder of the set consists of articles not referred to.

K. W. TAYLOR, Chairman.

THE WARTIME PRICES AND TRADE BOARD

## THE GOLFER'S ALPHABET

A's for Address (it deserves the first mention),  
 B is the Ball that receives that attention;  
 C is for Course and the Caddies that grace it;  
 D is for Divot (I hope you'll replace it),  
 E is for Eye, "on the ball" and directing it,  
 F is the Fizzle that comes of neglecting it,  
 G is for Green, very smooth and complacent,  
 H is the Hole and the Hazards adjacent,  
 I's for a very Indifferent player,  
 J is his Jumper, grown gayer and gayer;  
 K's for its wilder, more colorful Kinks,  
 L's for the Laughter it leaves on the Links,  
 M is for Mashie, a good club to master,  
 N is for Nilite, the tool of disaster,  
 O's Out-of-bounds, an annoying condition,  
 P is the Pull which explains that position;  
 Q is the Quest by which games are obstructed,  
 R is the Rough where that Quest is conducted,  
 S is for shocking bad Stances and Slices;  
 Tee is the place to behold such like vices,  
 U's for Umbrella, a useful possession;  
 V is for Vigor of Verbal expression,  
 W's Weather by which we are drowned,  
 X is the Xth and the turn of the round;  
 Y is for Yesterday's errors, now

ended,  
 And  
 Z is the Zeal which must see them amended.

## THE VALUE OF INFORMATION

(By H. G. L. Strange)

In this complex world the people of any one country depend for their welfare to a great extent upon the production by people who live in other countries, and so accurate information about what is being produced in any one country is valuable for all to know. Accurate information enables Governments, merchants, industrialists and farmers to plan ahead better than if such information were not available. All countries are most generous in giving information to Canadian people about what they are producing. Canadians, too, therefore, must do their share.

The official body that gathers information about production in Canada is the Dominion Bureau of Statistics. The Bureau is non-political.  
 By this time farmers of Canada will have received a yellow card entitled "Survey of Crops and Livestock". It would be, I suggest, greatly in the farmers' own personal interests, and of course in the interests of Canada, if these cards are filled in as quickly and as accurately as possible, and returned to the Dominion Bureau of Statistics. Information given on the cards is strictly confidential and in no circumstances is either the Taxation Department or any other Department of the Government permitted to have access to these cards. Farmers can rely upon that, and so should not hesitate about filling in and mailing the cards quickly.

## DON'T LET YOUR BEES HAVE THEIR OWN WAY.

(Experimental Farms News)

The bees method of making increase is by swarming, but to let them do it their way means smaller crops of honey and possibly loss of the bees also, says C. B. Gooderham, Dominion Apiarist, Central Experimental Farm, Ottawa.

Swarming is caused mainly by congestion of the brood nest. This may be brought about in several ways: To reduce the swarming tendency to a minimum the beekeeper must provide each colony with ample room for the best brood production and the storage of any surplus nectar or pollen that may be gathered by the bees. This requires a minimum of two full sized brood chambers and at least one for the storage of surplus, more of the latter will be needed once the main flow starts. Furthermore, there must be no barrier to the normal expansion of the brood nest.

The use of poor combs, crooked combs or the insertion of a sheet of foundation between brood combs will often reduce the brood area to part of the brood chambers only, causing congestion of the brood nest even in the largest of brood chambers. A shortage of storage space often causes the bees to store honey in the brood chambers, reducing the area the queen needs for egg laying, again congestion and swarming are the results. Special manipulations may also be required to induce the colony to expand normally. Where double or triple brood chambers are used it may be necessary to change their position to induce the queen to occupy them

all. For extra strong colonies it may be necessary to remove some of the blood from brood chambers to storage supers above. Where this is done the raised brood must be examined, for queen cells, seven days after raising it. In some regions where the main honey flow comes late and extends well into late summer or early fall, the swarming impulse can be stopped by dividing the colonies approximately six weeks prior to the main flow. In other regions the division can be made during the flow. Each new division should be given a laying queen as soon as made. These divisions take care of any increase that may be desired, and are made the beekeeper's way and not by that of the bees.

For further information write or call at your nearest Dominion Experimental Farm or write the Bee Division, Central Experimental Farm, Ottawa.

## GASOLINE FROM COAL POSSIBLE IN ALBERTA

Production of synthetic gasoline from coal was foreseen as a possible future Alberta industry by T. E. Warren of the federal mines department, Ottawa, in an address before the annual convention of the Chemical Institute of Canada.

Such an industry Mr. Warren indicated would have a life-expectancy of two to three hundred years, depending on the size of the plant. It would be longer if more reserves were found.  
 He made this estimate in discussing "factors influencing establishment of synthetic liquid fuel industry in Western Canada," and in assessing in particular the possibilities, of producing gasoline from natural gas.

The main factors in the situation on crude petroleum—from which Alberta gasoline is now refined—were the increased receipts at refineries, coupled with a continued decline in Turner Valley output. This meant increased imports, and imports now were about equal to Turner Valley production. Other fields were still small.

Gasoline consumption could be expected to continue rising, and supplies were contingent on the discovery of new fields whose value was hard to evaluate.

There were other methods of obtaining gasoline, and the basic materials were natural gas, coal, bitumen and heavy crude. Methods of manufacture were direct hydrogenation and synthesis.

Present reserves of natural gas in Alberta were hard to evaluate. Gas was being used at the rate of 120 million cubic feet daily. A 1945 estimate placed reserves at one trillion cubic feet. This figure could probably be increased as a result of exploration work in the last two years.

But, Mr. Warren estimated that at Banff recently even if no synthetic gasoline plant was established, the 1945 estimate of reserves would last only 23 years.

It took 10,000 cubic feet of gas to produce by synthesis one barrel of gasoline. Mr. Warren cited figures to show how on this basis the life-expectancy of gas fields would be reduced even below that, depending on the size of the plant, should such be built.

Turning to coal as a gasoline source, Mr. Warren said there was adequate coal in Alberta for a synthetic plant of any size no matter what kind of coal was used. He indicated there were sufficient reserves to keep such a plant supplied for 200, 300 or even more years.

The problem was not reserves but to increase the rate of daily production to support such an industry. Production would need to be increased anywhere from 30 to 100 percent, he said.

In a review of methods of synthesis, Mr. Warren said the German method used during the war was probably too expensive and too complex. Simplification was being studied.

A variant of the Fischer-Tropsch process being developed in the United States showed promise.

Of particular interest to Alberta was the direct hydrogenation of bitumen, because of the enormous amount available in the McMurray tar sands. Much research was necessary due to the high cost involved. The same applied to heavy crude found at Taber and Vermilion, but their production was so small to date interest was not great.

"Madam, what do you mean by letting your child snatch off my wig?"  
 "Oh, it's a wig, is it? I was afraid for a minute that he'd scalp ye."

131BRITAIN'S WHALING HARVEST  
EXCEEDS EXPECTATIONS

Britain is bringing back from the Antarctic a rich harvest of whale oil, meat, meal for cattle, feed and meat extract. The season has been remarkably good and the factory ship "Balena" was fortunate in securing the highest proportion of whales and edible oil. Owing to the fact that at the present moment world needs are the most critical

ever known, no less than 14 different expeditions have been fishing in Antarctic waters. More than 2,000 whales were caught by United Kingdom crews. 185,000 barrels of oil were produced in addition to sperm oil and other by-products. Another way in which the expedition distinguished itself was in the pioneer use of aircraft for whale-spotting and for weather reconnaissance.

**YOUR BLOOD is urgently needed...**

**to save Life**

Somewhere, on a hospital cot, someone's life is slowly slipping away.

That life can be saved. That man, or woman, or little child can be welcomed back with tears of joy by friends and loved ones.

You can be the means of keeping this thread of life from breaking. Your blood can help someone to live who otherwise would die. For blood is life itself. Will you donate your blood to the Canadian Red

## Cross Blood Transfusion Service?

This great new civilian Blood Transfusion Service has been opened by the Red Cross to provide whole blood and plasma, FREE... not even a Hospital Service charge, to all hospital patients in Canada who need it.

No greater gift can you ever give — for blood is life itself.

Contact your local Red Cross Branch or clinic, and say—"Yes, I will be a donor."

*Give blood that others may live*  
**CANADIAN + RED CROSS**

## It's so easy to handle!

"No masculine muscles needed to drive a Chevrolet! The gearshift on the steering column lets me shift gears with one finger—without shifting my grip on the wheel. And because every control responds so readily to the lightest touch, I can drive a Chevrolet all day long without strain or effort... park it quickly and conveniently whenever I choose."

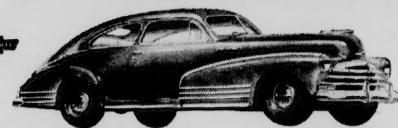

## It's so beautiful!

"If you're like me—if you value appearance—you'll lose your heart to the winning charms of Chevrolet. You'll love its long, sweet lines, its roomy and luxurious interior, its rich upholstery. It's truly the most beautiful car we've ever owned."

## It's so trouble-free!

"I never worry about delays or unexpected breakdowns in inconvenient places... now that I drive a Chevrolet! I wear my smartest, gayest costume, my most frivolous shoes—knowing I can depend on Chevrolet to carry me over good roads and bad, mile after mile, month after month, with never a need for even a minor repair."

## It's CHEVROLET!

Yes... it's Chevrolet... the car that offers Big-Car quality at low cost. You'll recognize this Big-Car quality in Chevrolet's Big-Car beauty, Big-Car comfort, Big-Car safety, and in the many vital features found only in Chevrolet and high-priced cars. And every model brings you the great plus value of Chevrolet's traditional economy of operation and low cost of maintenance.

The growing demand for the new Chevrolet is setting an all-time record. We cannot hope for many months to fill all the orders pouring in. If you are among the many who have set your sights on Chevrolet's Big-Car Quality at Low Cost, we suggest that while you wait, you rely on your Chevrolet Dealer's service to keep your present car running smoothly and safely.

### EDFORD MOTORS

An on-the-spot roadside chemical test for drunken drivers is being put into state-wide use by Michigan police.

During many months of the year the Great Lakes than flows over Niagara Falls.

## MOST OF US DON'T KNOW

Hardly anyone—not even the publisher—knows how important a newspaper is to a community.

The smaller the town, the more important the newspaper is in its economic life. Its news, editorials and feature stories focus the interest of surrounding territory on the place in which the paper is published.

This force and the force of advertisements by local merchants build an ever-widening trade area. This means more business, more money for schools, homes and churches—a bigger and better town.

A town with a newspaper is a town with a future. The better the paper, the brighter the future.

It deserves the support of every business man in that town.

We are trying to make this paper worthy of our town. Your help and suggestions are appreciated.

### DIDSBURY PIONEER

A Newspaper is More Than a Business—It is a Community Institution

### FORMER DIDSBURY TEACHER EXPLORES THE FAR NORTH

(Continued from Page 1)

ting me to my destination, sometimes 20 or 30 miles away over poor or obliterated trails through heavily timbered country.

"The trips into the 'far north' were sandwiched into the regular work. There were three of them, once in the late summer and twice in the cold winter months. The late summer trip was by river boat down the Mackenzie. The winter trips were by plane and by dog team. We went to Fort St. John, Whitehorse, Yellowknife, Dawson City, Aklayik, Coppermine, Nelson and Churchill on Hudson's Bay. Travelling into that country is always an adventure and not at one stop but at every stop there was material for a book. The people, the country, the conditions are so interesting they almost overwhelm you. Then the wild life is worth special mention: one book wouldn't hold it all.

"One night I went out alone for a walk over the deep snow. It was bitterly cold but to remain indoors with the heavy odors and the constant spitting and tobacco chewing was almost impossible. The valley was deep and strangely silent, only the brilliant Northern Lights seemed to keep sound with my swishing snowshoes. Yet I felt I wasn't alone. Some unseen eyes were behind the jagged mounds of snow. I likely walked three miles before I returned to the cabin. The next day the natives warned me against anymore night excursions alone. Yet I wasn't alone; six wolves had followed me to and from my walk. (Not the kind of wolves you find in Didsbury either.)

"The details of the plane crash were not mentioned in Miss Collins' letter, but it was apparently a two-passenger cabin plane and the crash occurred in the dead of winter in the far north somewhere between Aklayik and Dawson City. A few moments before they had passed over an Eskimo settlement. The Eskimos heard the crash and two hours later arrived on the scene.—Editor.— The Eskimo who found us was on a hunting trip for caribou. He was anxious to save the life of the pilot but I was a mere female and the fact that I was able to walk (I had only a bruised elbow) drove any idea of assistance out of his mind. The pilot had broken his pelvis bone. Our shoes had come off in the crash and all that covered our feet were the big, warm socks especially made for Northern flying shoes. But these socks were soon worn to ribbons against the icy particles of the jagged snow cliffs as I tried to trot behind the Eskimo and his dog team. At first one feels the pain and tries to fight it, but fatigue overcomes even the reality of pain. That five miles to the rule igloo was a century of my life clouded in oblivion. My feet still show the scars of the cut, torn and partly frozen flesh.

"At the igloo the toothless mouth and wrinkled face of the old grandmother in her dotage remains with me. She kept catching a quivering finger into me and kept giggling like a frozen cracking torrent. We had tea and frozen fish. Besides myself and the now semi-conscious pilot there were two men, two women, three children and six dogs in a shelter only ten feet in diameter. During the night one of the dogs had a litter of four pups.

The summer of 1945—completely alone with Indians at Fort Macleod. Some day I may have the opportunity to return to Didsbury and tell you about the Indian 'Polka', the Wildman, and the inevitable tribal customs. Kindest regards to all my former pupils, the rest of the staff and Didsbury friends."

KAY COLLINS

### EGGS AND YOU

There's a valuable tip, say the medical men, in that song and story entitled, "The Egg and I". For they point out, tucked inside eggshells is high quality protein, important for health.

Two medium-sized eggs substitute satisfactorily for one serving of meat, as far as protein is concerned. The yolk is packed with vitamins and minerals, too. The nutrition authorities say that Canadians should aim at eating at least three use as meat substitutes.

### MUTATIONS FROM ATOMIC BOMBING

The United States government has sent a research team to Nagasaki, Japan, where strange results have been observed from the growth of ordinary seeds planted in soil affected by the atom bomb. Such seeds have grown into agricultural monstrosities, including deformed pumpkins, two-headed egg plants and two-bulbed onions.

### TO X-RAY ALBERTA INDIANS THIS SUMMER

Intensive chest X-ray examination of Alberta Indians will commence on June 23rd at the Blood Reserve, Cardston, it was announced this week by C. Robert Dickey, general secretary of the Alberta Tuberculosis Association.

A portable, miniature X-ray machine was bought jointly by the Department of National Health and the Association, and will be operated by the Indian Health Service.

For two years past, periodic examinations have been made by the Alberta Department of Health, using the Association's mobile chest X-ray units. Last year the Association offered to pay part of the cost of a machine for special use among the Indians and also in the Far North. This offer was accepted and the program is now ready to start.

The itinerary for the next few months will include Cardston, Glenora, Morley, Homewood and Saddle Lake.

### FAVORABLE PRICES UNTIL 1950

United States farmers were told last week that food prices will continue favorable until 1950. Secretary of Agriculture, Clinton P. Anderson, made this statement before a congressional subcommittee. He asked approval to make the Commodity Credit Corporation, with authority to borrow up to \$4,765 million, a permanent organization. The CCC supports farm prices by purchasing commodities when the market trend is downward. The Secretary of Agriculture said, "I think it is perfectly safe to expect favorable prices for the next three cereal crops."

### RELIABILITY EXPERIENCE COURTESY

Every Night at 8:00 p.m., except Saturday, Also 11:30 a.m. Sunday. At Zella 2:30 p.m. Sundays.

Rev. Wm. Barber, Pastor

YOU ARE CORDIALLY INVITED

### FARM WOMEN'S WEEK

The attention of Alberta Farm Women is again directed to the annual summer Short Course at the Schools of Agriculture, popularly known as "Farm Women's Week." Dates are as follows:

At Vermilion School—July 3 to 8. At Olds School—July 21 to 26.

Advance applications for the Course indicate that a heavy registration can be expected at both the schools. Since a definite limit is placed on the number that may be accepted, those intending to make application are advised to do so well in advance of the opening day before the classes are completely filled.

The course consists of lectures and demonstrations on time household topics including Foods, Nutrition, Handicrafts and Sewing, with some time devoted to other topics of interest to farm women such as gardening, poultry and household repairs. Comfortable accommodation is provided in the School dormitories at a rate of \$1.50 per day for board and room.

Requests for complete information and application form may be sent to the Principal, School of Agriculture (Vermilion or Olds), or to the Department of Agriculture, Parliament Buildings, Edmonton.

### P.F.R.A. NOT TO EXTEND

The provisions of the Prairie Farm Rehabilitation act will not be extended beyond the boundaries of the three prairie provinces, according to Rt. Hon. J.G. Gardiner, federal minister of agriculture. British Columbia, Nova Scotia and New Brunswick have asked for an extension of the act to their provinces.

### HOME LIGHTING

Indirect lighting which may be effective, and adequate, in the dining room at meal times, is not sufficient for reading and study purposes. Health authorities specializing in illumination improvement, say that if a room is to be used for close work, light should be supplemented by semi-direct reading lamps, preferably of the floor type.

In the living room, it is also well to have either floor or table lamps where needed, so that every member of the family gets suitable illumination.

### FACTS OF INTEREST

In our pioneer days when there were few outlets for the expression of public opinion, the petition was a useful and powerful weapon. This situation has changed with the development of powerful farm organizations, Boards of Trade, service clubs, many newspapers and publications of all kinds and radio. Today a petition, signed even by 500,000 people is a sign of weakness in a cause rather than strength. It shows support by only 7 per cent of Canada's seven million electors.

### FARM FIRES IN 1946 CAUSE HEAVY PROPERTY DAMAGE

A total of 3,348 farm fires in Canada in 1946 caused a property loss valued at \$4,200,151, according to returns compiled by the Dominion Fire Commissioner. Ontario had the most farm fires, 1,604. Quebec was next with 799 farm fires and Saskatchewan was third with 278 fires. Manitoba had 241 fires, and Alberta 129 farm fires.

**DO YOU KNOW**

HOW THE NEW AUTOMOBILE  
ACCIDENT INDEMNITY ACT (1947) AFFECTS YOU ?

Insurance is Not Compulsory, But Under the New Act

Your Driver's License Will Be Suspended

If you become involved in an automobile accident where someone is injured or killed, or damage to property exceeding \$25 is done, unless you can show proof of Financial Responsibility or that you have satisfied all claims.

PROOF OF FINANCIAL RESPONSIBILITY MEANS  
CASH OR SECURITY — A GUARANTEE BOND  
OR AN AUTOMOBILE INSURANCE POLICY

AUTOMOBILE PUBLIC LIABILITY AND  
PROPERTY DAMAGE INSURANCE

is the easiest and best way to prove Financial Responsibility, but it must be obtained before the accident.

**DO NOT BE CONFUSED—The \$1.00 being collected by the Government from all automobile owners DOES NOT GIVE YOU INSURANCE PROTECTION.** The money so raised is to be used by the Government as a fund for satisfying judgments where the injured party is unable to obtain compensation from the owner of the car causing the injury or damage. It will be known as the "Unsatisfied Judgment Fund."

**DON'T WAIT UNTIL YOUR FIRST ACCIDENT WHEN YOUR LICENSE WILL BE SUSPENDED. BUT**

Obtain Adequate Insurance Protection Now !

**-: DISTRICT NEWS :-****BURNSIDE NEWS NOTES**

Little Johnny Kohut is in the  
Didsbury hospital, suffering with  
pneumonia.

Mrs. E. Page and daughter Mary  
are holidaying with her brother,  
George, at Trail, B. C.

Poverty Flats are improving all  
the time. Sandy Brander has purchased  
a new self-propelled combine.

We notice Jack Underhay is doing  
the summerfallowing on the  
land of his neighbor, Ed Watkin.

Sunnyslope lost to Trochu 7-6 in  
the ball game played at Sunnyslope  
last Wednesday.

Mr. and Mrs. Walter McCulloch  
were Calgary visitors last Saturday.

Miss Elsie Stimson and Mrs.  
Harry Johnson were recent visitors  
at the home of Mrs. Bob McCulloch.

Mr. John Spaepen, who is at  
attending school in Calgary, spent the  
week end with his sister, Mrs. Sandy  
Brander.

Mr. and Mrs. J.C. McCulloch  
visited with friends at Bowden on  
Sunday.

Mr. and Mrs. Garnet Tighe and  
Bud left for a six week's holiday  
in the States and Eastern Canada,  
where they will visit with their  
daughter, Lillian, and family, at In-  
verness, Quebec, and with Garnet's  
grandmother, Mrs. Simpson, at  
Lakeland, Ont.

Mr. and Mrs. Harold Swanson  
and family were dinner guests of  
Mr. and Mrs. Howard Pross on Sunday.

The Lone Pine hall board are  
holding an old fashioned picnic on  
July 4 at the hall. There will be a  
dance in the evening. Come one,  
come all, and have a good old time.

Mr. and Mrs. Gordon Rathburn  
have moved into the Joe Clarke  
house for the summer. The farm is  
rented to Ivor Weber.

**MELVIN NEWS NOTES**

The baseball game at Melvin  
Sunday was a decided success for  
the local boys when they defeated  
Crossfield 15-2. Lawrence Krebs  
and Glen Thompson were in the  
pitcher's box for Melvin. The boys  
must be made of good stuff, for after  
playing a bang up game and  
getting a finger smashed in the bar-  
rain, Allen broke out that night  
with chicken pox. On Wednesday  
evening Melvin is scheduled to play  
at Olds, while the following Sunday,  
June 22, Carstairs will play at  
Melvin.

Clary Youngs left last week for  
Cadman, where he has taken a  
position for the summer as insur-  
ance man for the Manfitt Con-  
struction Company. Clary was suc-  
cessful in obtaining a first class  
standing in the University in Ed-  
monton this year. Congratulations,  
Clary.

The Melvin Red Cross group met  
last Thursday at the home of Mrs.  
G.A. Youngs, where they quilted  
the "Dresden Plate." It was a lovely  
day and there was a large turn-  
out. The next meeting will be in  
August at the home of Mrs. W.  
Summers, when another quilt will  
be done.

Relatives from Drumheller, Cre-  
mona and Three Hills visited at the  
Johnston home last week.

Don't forget the dance to be held  
in Melvin hall on Friday, June 27.  
The name of the orchestra will be  
announced later.

**WESTCOTT NEWS NOTES**

We are glad to hear that Mrs.  
Bert Smith is much improved in  
health and is expected home from  
the hospital soon.

Word has been received that a  
daughter, Lois Margaret, was born  
on June 3 to Mr. and Mrs. Henry  
Snider at the Drumheller hospital.  
The Henry Snider's were at one  
time residents of this district.

Mr. and Mrs. Lindy of Kimber-  
ley, B.C. were week end guests at  
the home of the latter's sister, Mrs.  
Clarence Reinhardt.

Mr. and Mrs. Bob Patchell of Cre-  
mona were also guests at the Clare-  
nce Reinhardt home Sunday last.

Mr. and Mrs. Bill Weidner have  
purchased a new Chevrolet car.

Mrs. Kenebuh, the Westcott  
teacher, took her pupils on a hike  
on Friday last and everyone re-  
ported having a grand time. With  
Mrs. Swanby and Mrs. Konechuh  
providing the special treats, the  
day was a complete success for the  
children.

Many of us were out Sunday  
evening to see the ball game at Elk-  
ton. The game was marred, how-  
ever, by a foul ball hitting one of  
the spectators. Miss Stadelker, the  
Elkton teacher, was hit just below  
the knee and the injury necessitated  
her being moved to the Dids-  
bury hospital. We do hope it won't  
be too long before you're around  
again, Marion.

Mr. and Mrs. Linden Jacobson  
were Sunday visitors at the Bel-  
may's of Garfield.

**NOTES FROM THE EAST**

The Lone Pine W.I. met at the  
home of Mrs. Floyd Ahlgren with  
an attendance of thirteen. Roll call  
was answered with a "hint for a  
bride." But we believe we are a  
little late in giving hints for brides  
because all the brides to be are  
married in the east. One member  
renewed her membership.

The meeting was rather a long  
one with a good deal of business.  
The reports of the Calgary conven-  
tion given by the delegates, Mrs.  
Elliott and Mrs. Richardson, were  
enjoyed. Mrs. W. McCulloch was  
elected as delegate to the Con-  
stituency convention to be held in  
Didsbury on June 23.

Plans for the picnic, to be held  
at Keivier's Lake, were cancelled.  
New arrangements were made for  
the Lone Pine picnic to be held at  
the Lone Pine hall on July 4. The  
hall board is joining with the W.I.  
and they will sponsor the dance in  
the evening.

Mrs. G. Huggard won the ten  
cent draw. On account of the  
lengthy discussion the flower dem-  
onstration had to be dispensed with  
for this meeting. The meeting closed  
with the hostess and Mrs. E. Richard-  
son.

Ladies please note. The next W.I.  
meeting will be held at the home of  
Mrs. Alf Thompson on the third  
Wednesday in July instead of the  
usual date. The change was made  
because of the Calgary Stampede  
during the regular meeting week.

Mrs. Walter McCoy and family  
were Sunday guests at the home of  
Mr. and Mrs. B. Shells.

Mr. and Mrs. Joe Hunter and her  
three smaller sisters motored to  
Pine Lake for Sunday. How was  
the fishing, Joe?

Mr. and Mrs. H. Shells intend to  
commence remodelling the house  
on the farm they purchased from  
O. Bittner. They intend to move  
onto their place early this fall.

Mrs. G. Huggard and family  
spent Saturday afternoon visiting  
with Mrs. Coates.

Little Patsy Coates returned  
home after a two month's visit with  
her sister, Mrs. D.L. Fobes of Olds.  
We are pleased to report that  
Miss Hanna Neufeld is progressing  
nicely after her operation last Tues-  
day morning.

This week will be the last one  
for the primary grades at Jutland  
school. I can hear then yelling,  
"Hurray for the summer!"

We would like to thank the mail  
carrier, Mr. V. Gillrie, for his  
patience and perseverance. When  
phones were out of order, rock in-  
cessable, he kindly waited at the  
school to receive the news letters.

We appreciate his interest. Thank  
you.

Master Bobbly Fulkert is staying  
with Mrs. S. Brander this week to  
assist in doing chores during Mr.  
Brander's absence. Sandy is going  
on a tour of Southern Alberta to  
visit such outstanding Hereford  
ranches as the Prince of Wales' at  
Harris River and the Crawford and  
Foster ranch. Sandy is taking Paul  
Housier with him and will travel  
nearly to the southern border. This  
tour is for members of the Here-  
ford Association of Alberta and the  
members can take a friend. They  
will be entertained at Calgary and  
other points with banquets. Sandy  
went on the tour of Northern Al-  
berta last year and says he had a  
very enjoyable time.

Teamwork means not just will-  
ingness to lay your plans upon the  
table, but willingness to see them  
scrapped.

## LOCAL NEWS

Mrs. Pratt, Mrs. G. Carter and daughter of Calgary attended the shower for Miss Ann Snyder on Wednesday afternoon at the home of Mrs. David Pratt.

Mayor H. Lynch-Staunton was a business visitor to Calgary Thursday last.

Garbage Cans, approved by the sanitation committee, are available at the Builders' Hardware.

Mr. and Mrs. C.F. Nicholl commenced their holidays the first part of the week.

We are fully equipped at White Rose Service to do a first class repair job on any make of car, truck or tractor. Come in and see our special tools and machinery.

Born in the Olds hospital on Sunday, June 8th, to Mr. and Mrs. E. Morrison of Elkton, a son.

The perfect graduation gift — A Lane Cedar Chest, on display at Builders' Hardware.

Cy Armstrong, former accountant at the Didsbury branch of the Royal Bank, and now of Lacombe, is relieving at the local institution during the manager's absence on holiday. Cy is a great golf and shooting enthusiast and hopes that the local trapshooters will get going before he leaves.

Prior to leaving Tuesday for a couple of months' motor trip to Eastern Canada, Mr. and Mrs. Garnet Tighe had as their guests Sunday Mr. and Mrs. W. Spooner of Acme, and Mr. and Mrs. W. Casbeer of Carstairs.

Let us demonstrate a Westinghouse Radio in your home—Builders' Hardware.

A picnic, sponsored by the Neapolis Cooperative Consumers Assn., will be held Saturday, June 28th, at the Neapolis Cheese Factory. Everybody welcome. Come and have a good time.

The regular meeting of Didsbury Branch Canadian Legion, B.E.S.L. will be held in the hall on Thursday, June 26th, at 8 p.m. The meeting will start on time so as to finish up the business before the entertainment starts at 10 p.m. Entertainment will be provided in future at all meetings, after business is completed.

A Hoover Vacuum Cleaner demonstration in your own home can be arranged by phoning No. 7, the Builders' Hardware.

Edford Motors garage building is gradually getting the finishing touches added and last Wednesday the signs were painted on the windows and the large name plate added to the front of the building.

Alton Braley is around again after a severe case of the measles.

An executive meeting of the Women's Auxiliary will be held at the home of Mrs. Bulr on Saturday afternoon, June 21st, at 3 p.m.

Save money with Economy Repack Oil Filter Cartridges. They are easy to take apart and take from 3c to 15c worth of cotton to refill. Why pay 36 cents per ounce for cartridges when cotton sells for 36 cents per pound? Can be obtained for all types of oil filters on all cars, trucks and tractors. Save \$20 to \$50 per year. — White Rose Service, phone 149.

The Knox United Church Sunday school picnic was held at the Butte last Wednesday evening and all report a very enjoyable time.

Henry Sportel is the owner of a new Plymouth sedan, purchased through the local dealer, Rosebud Garage.

Used 3-Piece Mohair Chesterfield Suite, \$35.00—Builders' Hardware.

Among those seen at Sylvan Lake last Sunday were Mr. A.G. Studer, Mr. and Mrs. Ed Ford and family, and Mr. and Mrs. Ian Smith.

Mrs. E. D. Gibson arrived last Thursday from Vancouver and is visiting with Mr. and Mrs. Lynch-Staunton. Mrs. Gibson arrived last year from England to visit with her son-in-law and daughter, and granddaughter, Mrs. L. Stewart. She is now visiting other relatives in Canada, Mrs. Lynch-Staunton being a sister of Sqn. Leader Stewart.
